

JOHNSONS

fine family jewellers since 1897

RING SIZE GUIDE

Measure a ring you already have by placing it over the top of one of the guides below to compare the inside diameter...

MEASURING YOUR FINGER

1. Print this page as A4 size, ensuring that 'fit to page' is NOT checked
2. Cut around the sizer below, ensuring you cut out the slot as instructed
3. Place around the finger and slide logo end through the slot to form a loop
4. Pull gently until tight but comfortable
5. Be careful not to pull too tightly - the loop should slide easily over your knuckle
6. Read the letter the arrow is pointing to

This is your approximate ring size.
